

### **Eduard Akhunov**

Eduard Akhunov is currently an Assistant Professor in the Department of Plant Pathology at Kansas State University, USA. He received his Ph. D. degree in Plant Molecular Biology from the Institute of Genetics in Russia.

>His research interests are focused on studying the genetic diversity of wheat and its wild relatives, application of next-gen sequencing technologies to wheat genome sequencing and characterizing its structure, and development of genomic and genetic tools for association and linkage mapping of agronomic traits.
